Dear Mr. Hedberg:

The Dixie Resource Area has received the attached Notice from Stephen Laub for work in T. 39 S., R. 19 E., sec. 10. Our case file number for this operation is UTU-74914.

This area is already disturbed by previous mining activities, so little additional surface disturbance is projected.

I have also enclosed the closure letter for the Caruso's MJK operation (S/053/029) and a copy of the paid bill for his rock removal on the Harrisburg Bench (S/053/017). The Harrisburg bench was handled as a mineral material trespass, because the area was not open for location of mining claims. No closure letter was sent, but the case was closed by the BLM when the bill was paid.

Comments concerning the Laub proposal need to be submitted before April 30, 1996. If you have any questions or comments, please contact me at this office at extension 205.

Sincerely,

Larry Gore
Geologist
